February 4, 1955

WELCOME TO THE NATIONAL POLLED SHORTHORN CONGRESS!!
It is indeed a great pleasure and honor to welcome the Polled Shorthorn breeders to the National Polled Shorthorn Congress at Lexington, Kentucky, March 14 and 15.

It is apparent that Kentucky farmers, as well as livestock men all over the nation are becoming increasingly aware of the feasibility of improving their livestock herds through the use of purebred animals. I am hopeful, and feel certain that this congress of Polled Shorthorn breeders will do much to emphasize that fact to our Kentucky farmers. It is my belief that this Show and Sale will prove to be a highlight of the year's agricultural events.

Again let me welcome you to Kentucky and invite each of you to partake of the hospitality of which we are so proud. Hoping to see each of you in Lexington, I am,

With kindest regards,

Ben S. Adams
Ben S. Adams
Commissioner of Agriculture
Commonwealth of Kentucky

In Appreciation

The progress of any breed is influenced by the aggressiveness and cooperation of those who contribute their time, money and effort to the promotion of the breed. No little thanks for the success of this 1955 National Polled Shorthorn Congress should be given to the breeders whose efforts have made possible this consignment of top productions from leading herds.

Then there is another group who have given time and money, as well as effort, to the promotion of this Congress. As proof of the aggressive methods and constructive attitude behind the growing livestock interests in the South, the Kentucky State Legislature, and the Kentucky Department of Agriculture, Ben S. Adams, Commissioner, have made available \$6,000.00 to be matched by the American Shorthorn Breeders' Association for the premiums and promotion of this event. Small wonder, then, that Kentucky is fast becoming one of the leading livestock states.

Attractive silver trophies contributed as follows:

Grand Champion Bull - Breeders' Supply and Equipment Co.,
1465 Leestown Pike, Lexington, Ky.

Reserve Champion Bull - Phoenix Hotel,
Lexington, Kentucky

Grand Champion Female - Livestock Health & Supplies, Inc.,
1093 W. High, Lexington, Ky.

Reserve Champion Female - Phoenix Hotel,
Lexington, Kentucky

Winning Get of Sire - Thomas Piatt,
Brookdale Farm, Lexington, Kentucky

Ribbons contributed by American Shorthorn Breeders' Association.

To all who have contributed so generously we take this means of expressing our sincere appreciation. We know all Polled Shorthorn enthusiasts join us in extending thanks.

MARCH 14 - 15

POLLED SHORTHORNS

NATIONAL CONGRESS

Monday, March 14th, 1955

9:30 A. M. - Show of the Sale Cattle -
Live Stock Arena, University of Kentucky
JUDGE: Dr. W. P. Garrigus

7:00 P. M. - ANNUAL MEETING AND BANQUET
AMERICAN POLLED SHORTHORN SOCIETY
Phoenix Hotel, Lexington

Tuesday, March 15th, 1955

9:30 A. M. - NATIONAL POLLED SHORTHORN CONGRESS SALE
Live Stock Arena, University of Kentucky

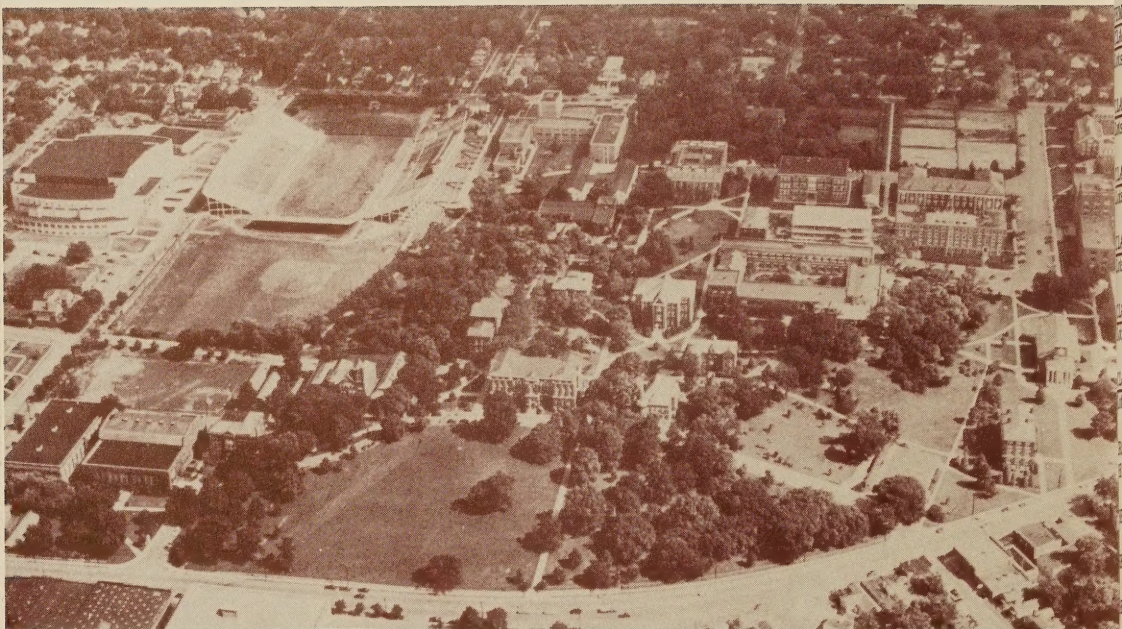

HOTEL RESERVATIONS: It is necessary for all who plan to attend this Congress to make whatever hotel reservations are required as far in advance as possible. The PHOENIX HOTEL, in downtown Lexington, Kentucky has been established as headquarters and the management will make every effort to accommodate you.

MOTELS: Those preferring motel accommodations are referred to the TOWN HOUSE MOTEL, 912 S. Limestone, (about two blocks from the Campus) - - the SPRINGS MOTEL, 2020 Harrodsburg Pike, - - MARKWELL'S TOURIST COURT, 1915 S. Limestone - all located within easy distance of the University of Kentucky campus.

LUNCH: For the convenience of our guests lunch will be served at the grounds on both days by the Block and Bridle Club.

BANQUET: Every Polled Shorthorn breeder and enthusiast should plan to attend the banquet to be held at 7:00 P. M. Monday, March 14th in the Convention Hall of the recently remodeled Phoenix Hotel. Tickets will be available from any Association representative.

STANDARD GUARANTEE OF AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calftlood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

SHORTHORN CONGRESS

Breed History Will Be Made

*Information
for the Buyer*

MAIL BIDS - Those unable to be present who desire to take advantage of the buying opportunities in this sale, may rest assured that mail or wire bids will be honestly and faithfully executed. Any of the following competent men will be happy to handle buying orders for you. They may be contacted at the addresses listed, or they can be reached in Lexington in care of Phoenix Hotel.

SHIPPING ARRANGEMENTS - It is the obligation of the consignors and this Society to see that all cattle are properly loaded on cars or trucks as directed by the buyers for immediate shipment. Cattle will be at buyer's risk as soon as bid off, but every precaution will be taken to see that animals arrive in sound and healthy condition. **BE SURE TO LEAVE DEFINITE SHIPPING INSTRUCTIONS WITH THE SALE CLERK.**

LIABILITY - Although every precaution will be exercised to protect the safety and comfort of guests of the show and sale, neither this Society, nor its representatives, nor the auctioneers or clerks, can assume any liability for accidents.

TERMS - The terms of the Sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction.

GUARANTEE - All animals sold in this sale will be backed by the Standard Guarantee endorsed by the American Shorthorn Breeders' Association, which is printed in this catalog.

AUCTIONEERS - J. E. HALSEY, DES MOINES, IOWA.
C. D. SWAFFAR, TULSA, OKLAHOMA.

Model Foxglove x1557123
Red, Henry E. Sautter

LYNNWOOD SATISFACTION - Is a thick, meaty bull possessing good bone and shortness of leg, by the 1950 Indiana State Fair Grand Champion, both open and Gold Medal and 1951 International first prize two-year-old - the only times shown. His dam is one of the better cows in the Lynnwood herd and regularly nurses two calves. This bull was held in reserve in our breeding program; consequently has had only light service, but his calves are a real credit to him.

MARCH 14 - 15

LF FASCINATION, Sired by Carona Fascination, was the Junior and Grand Champion Polled Shorthorn bull of the 1954 International Live Stock Show in Chicago.

All of the qualities sought in a good bull were embodied in the Grand Champion. This summer yearling possessed a pleasing masculine head which blended smoothly into a short neck. He was straight in his top and under line and carried his width and thickness uniformly from end to end. He had tremendous bone, impressive size and was extremely stylish on the walk.

Bred by Ellis Shafer of Royal Center, Indiana and purchased as a calf by Landen Farms, Foster, Ohio.

GLEN E. FRAZIER

MALE

HILLCREST CORONET 3D x2727-764 L-124

2

Red, Jos. Baxter & Son
Frances 2086642
Red, J. E. Bronaugh

HILLCREST CORONET 3D - Is thick, short-legged, good-headed, well-balanced and the best son of Vanities 8th, that has a reputation for siring state sale champions, top-sellers, as well as being a sale topper himself. He was Reserve Grand Champion at the Northeast Mo. Fair in horned competition, and looks like a dehorner. He is ready for plenty of service.

JUGGLER'S KING 7TH

3

COOPER FARMS

MALE

JUGGLER'S KING 7TH x2734-762 L-2P27

JNOETTA MERRY COUNT - Has a good head, is built right and has been a good doing bull since born, and the best we have ever consigned to a sale. We will have three calves sired by him. Check him over as a top herd sire prospect.

The years continue to add evidence that giving each buyer an over-flowing measure of square deal is the smartest business practice any breed auction can follow, and that can be said of every Polled Shorthorn Congress to date. The who's who buy here. They have learned by experience that there is no more dependable foundation for a leading herd than championship blood, and it can always be found at these annual national events. COME AND PROVE IT TO YOURSELF.

6

EDMUND T. MORRIS

MALE

WAYCROSS MERCURY 41ST x2770-191 L-2M33

Roan, B. C. Carpenter

OAKWOOD MAJESTY - Has been a consistent winner in the 1953 and 1954 shows. At the 1953 International he topped the Senior Bull Calf class and was Reserve Junior Champion, as well as a member of the First prize Get of Sire and winning Pair of Calves. He was second at the 1954 International, the Ohio, Maryland and West Va. State Fairs and a member of the winning three bull group at these fairs. He is a bull of exceptional scale and thickness, great bone and ruggedness. He has the head of a sire and inherits the right to prove his promise.

8

R. H. RANCK

MALE

GLENWOOD CHOICE GOODS x2739-220 R-88

	Roan, Lynnwood Farm	Roan, Albert Hultine & Sons
		Regal Gladness x1911644
		Red, A. F. Weber

GLATWYN LEADER 5TH - Is a solid red, with great depth, very rugged bone and short legs, out of a great brood cow that was full-sister to Glatwyn Sensation that produced the 1954 Congress Champion bull. He is a full-brother to Glatwyn Leader 15th, our first prize Junior Calf in six strong shows, including the International. We did not show this bull because he was our choice for herd service and we have several cows in calf to him. We are now keeping the "15th" for a herd sire, therefore offering the "5th". By inheritance and individuality this bull is destined for a great breeding career.

14

ALCOVE FARMS

MALE

ALCOVE CROWN 2D x2745-628 R-306

			Lynnwood Jenny Lind x2109138
			Roan, Lynnwood Farm

ROUND GROVE LEADER 21ST - Is a bull bred to be an improver and looks the part. He is very much like his full-brother that was first in the Bull and Female Pair at the 1953 Congress, selling to Hudson Bros. for \$1185. His full-sister won her class at the 1954 Congress and sold to Avenel Farms for \$1,000. He is strongly polled on the dam's side and should be a 100% dehorner like his sire, the 1950 Congress Champion.

LEXINGTON, KENTUCKY

17

World Wide Demand

Polled Shorthorns are the naturally hornless model of the Shorthorn . . . rapidly sweeping to the front in popular acceptance everywhere. They have all the Shorthorn superiority as a beef breed . . . quick adaptability, earlier maturity, quiet, easy-feeding dispositions, good foragers, popular and profitable in the feedlot . . . plus NATURAL HORNLESSNESS.

These characteristics have been bred into Polled Shorthorns for generations and today they possess the highly important prepotency to pass along the improvement.

Polled Shorthorns are an all-American product, developed by thinking breeders because of popular demand with an eye to what the future cattleman will find the most profitable. Keep pace with this growing demand. Give practical stockmen what they are asking for. Breed Polled Shorthorns . . . the modern type of beef production. The growing demand assures an excellent market for your surplus stock.

Polled Shorthorns are tops in weight-for-age, gentleness, quality, modern type and their ability to utilize farm-grown roughages efficiently is unexcelled. Combine this with the fertilizer which they give back to the land and you have the ideal plan for soil conservation.

Today's uniformity of leading Polled Shorthorn herds represents a significant achievement in animal breeding. The scenes taken on a few of the leading Polled Shorthorn farms symbolize this important measure of success in breed development. The uniformity and excellence in type and quality portrayed give convincing evidence of the constructive nature of operations on hundreds of American farms today. Aren't these the kind of Polled Shorthorns you would like to own?

World Wide Demand

POLLED SHORTHORNS

Remember, profitable farming is based on sound planning in the use of good seed, good feed, good fertilizer and **GOOD LIVESTOCK**. Polled Shorthorns are the most practical and profitable cattle for American farms. They offer the farm family security and dependability year after year.

Master breeders with sound knowledge, patience and foresight have accomplished much in the production of more and better Polled Shorthorns. The beginning of any good breeding program starts with the assembly of females. The continuation of that breeding program is dependant upon the addition of cows with uniformity of type and excellence of quality, along with acceptable ancestry. Such requirements are filled naturally by modern Polled Shorthorns. They fit the economic demands for breeding cattle . . . also utility, efficiency and profitable performance . . . the effective basis for practical farming.

Polled Shorthorns are the choice of the man who looks to the permanency of his economic future, as well as to a long-term breeding program. Thick, blocky, close to the ground, quiet, easy-feeding females with abundant scale for age and plenty of milk for early maturing calves are the ideal foundation females for a herd. Upon the cow herd depends the speed with which returns are gained on cattle investment. Good cows not only go on working for their owners every minute of their lives, but also turn otherwise wasted roughages into a thrifty bank balance, at the same time converting land into more fertile acres.

A breeder soon learns that he can't afford to buy anything but the right kind if he has any hope of being successful, either in the pure-bred or commercial cattle business. Polled Shorthorns are the kind that will help you achieve the utmost per dollar invested.

THOS. PIATT

MALE

BROOKDALE ROYAL x2750-519 R-198

19

Red, white marks, calved April 26, 1953. Bred and owned by Thos. Piatt, Lexington, Kentucky.

GLATWYN LEADER 11TH - Our Summer Yearling show bull that made one of the better show records of the breed in 1954. Shown eight times... first five times and second three times. He was defeated in class only by Landen Farms' popular Champion LF Fascination. His dam has always been selected as one of the best cows in the herd and has certainly been a producer. Our 1954 show herd was from the first crop of Glatwyn Leader calves. We led out sons of Leader 22 times and came back with 14 firsts, 7 seconds and one fifth. Leader 11th is a good bull with a great future as a sire.

CEREMONIOUS CAVALIER - One of the best sons of the Illinois, Indiana and Ohio State Fair Champion bull that did so well for the Clodfelters last year. His dam was a top member of our 1949 show string and by an International first prize winner. This summer yearling from our show string this past season is thick, deep, short-legged with a wonderful quarter.

Roan, Bert A. Hanson
Cumberland Princess 1795542
Roan, E. P. Carnes

BEACON'S PRINCE - Note the bone, ruggedness, fleshing ability, smoothness, type and style of this bull. He has been used in our herd and is a sure breeder. His breeding assures his producing the right type. Few herd bulls have the style, bone, depth of body, low flank, smoothness and good set of legs as his sire.

A Study in Polled Shorthorn Type

These Polled Shorthorn females present a study in breed type which may well guide those who are building herd foundations. They show a striking balance of superior depth, width, thickness, constitution, carcass pattern, strong bone, quality and feminine character.

The heifers represent second and fourth generation breeding by one of America's internationally known Polled Shorthorn breed builders and improvers.

This illustration, carefully noted, can supply the less experienced with some basis upon which to fix their ideals and by which to interpret showing and sale happenings.

UNEXCELLED MOTHERS

Every breeder likes his cattle with good, even dispositions, gentle, with big calves and long lactation periods. Polled Shorthorn cows fill that bill perfectly. The matrons pictured show great placidity of disposition, which added to the ability to produce abundant milk, make Polled Shorthorn females such excellent mothers.

Great weight for age depends not only on inherited tendencies, but on plenty of mother's milk from the day the calves are born until they are weaned. Because Polled Shorthorns have the advantage of both of these qualities they have greater weight-for-age than any other breed. The abundant milk of the Polled Shorthorn cows produces growthier, healthier and more profitable calves.

Ideal Type Polled Shorthorn Female

POLLED SHORTHORNS . . . SOLID FOUNDATIONS FOR SECURITY

The herd which achieves distinction consists of the best bull that money can buy and good females which can enhance that bull's value with each succeeding crop of calves.

Those who study their costs in raising heifers are convinced that it pays to raise only the good ones. It takes just as much feed, just as much time, just as much barn and pasture room to raise poor ones as it does cows like those portrayed that are bred right . . . but there is a vast difference in the check when it's selling time for either the calves or their dams. Select your foundation females and herd sire where the quality is high and the animals popularly bred!

The progress of a breed is determined by the actual improvement of its animals. Constant improvement in leading Polled Shorthorn herds has been made possible through the careful selection of modern type breeding animals. The uniformity developed through this method makes the task of breeding Polled Shorthorns a much more pleasant one.

Their efficiency in converting roughages into beef, their greater weight for age, fast-gaining ability, gentle dispositions and hornless character, make them adaptable to all conditions under which beef cattle are produced

EL-BROOK SECURITY - Is an outstanding full-brother to our popular entry in the 1954 Congress that sold as one of the tops to O. R. Stahl, Sheridan, Indiana. The calves we have by the Stahl bull prompts us to recommend this calf highly as a show and herd bull prospect.

International Grand Champion

In '54

POLLED

SHORTHORN

FEMALE

Hilddale Louise, sired by Hilddale Collynie 50th, was the Senior and Grand Champion Polled Shorthorn female at the 1954 International Live Stock Show in Chicago. She was bred and shown by W. T. Bennett of Oakville, Wash. She was also Grand Champion female in competition with horned Shorthorns at the great Pacific International Show at Portland, Ore. She was the Reserve Junior Champion at the 1953 International - standing second in class to the Grand Champion female of that show. Her type, quality, short legs and wonderful thickness mark her as a champion.

She is owned by Lynnwood Farm, Carmel, Indiana.

47

RAY PEEBLES & SON

Natural Hornlessness

The breeder likes Polled Shorthorns . . . the farmer likes Polled Shorthorns . . . the feeder likes Polled Shorthorns . . . the packer likes Polled Shorthorns.

They are pleasing to the eye, have individuality, character and good dispositions, and the best possible conformation.

No section of the United States is over-supplied with herds of good beef cattle and wherever they are found as a major livelihood there prosperity moves along at an even level. Cattlemen can always count on an income where many other lines of business fall short. This has been especially true of Polled Shorthorn herds. They have weathered economic storms and return maximum profits on your investment.

The greatest returns per cattle unit will come from quick fattening, good milking, earlier maturing hornless Shorthorns. The degree to which the production of beef has risen in efficiency makes the utility advantages of the Polled Shorthorn especially desirable to the American producer of prime beef.

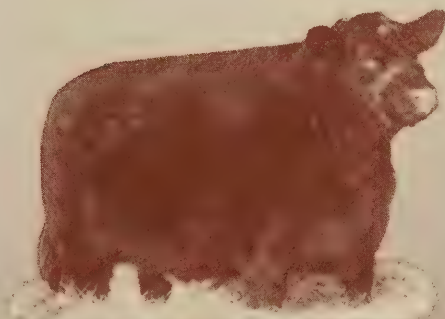

Polled Shorthorns are pound makers with abundant natural flesh, well-balanced, with wide, short bodies, straight legs, strong backs and good heads. Because of their natural hornlessness they are able to make the most efficient use of shed and pasture space, meanwhile putting on the greatest weight for the same amount of feed of any beef breed.

There's Dependability in Polled Shorthorns...

TPS MAX CORONET 5th

BONITA CORONITA 11th

CLARISSA CORONITA 9th

S G ADMIRATION

HILLDALE COLLYNIE 60th

Polled Shorthorns have consistently gained in world favor because they possess the characteristics of adaptability and efficiency. Coupled with ideal type they have all the advantages of other breeds and none of the disadvantages. They can give you all the superior money-making qualities of natural, greater weight and early maturity of the Shorthorn, plus the money and time-saving attributes of the naturally hornless head. They can turn grass and roughage into cash income faster than any beef breed and are easier to handle because of their quiet, easy-feeding dispositions.

The blood-lines of the International Grand Champion Bulls and Females shown here have supplied some of the master strokes in building the increasing present-day popularity of Polled Shorthorns. They possess the quality and type much sought for in modern Polled Shorthorns. Their excellent type tells you instantly something of the far-sighted vision which has gone into making the breed the super-efficient beef animal it is today.

Polled Shorthorn . . .

Quality and Progress . . .

is exemplified in these illustrations showing good-bodied, outstanding International Grand Champions. The successful Polled Shorthorn breeder aims toward a definite goal. Firmly imbedded in his mind must be the type that will lead toward success.

A study of the illustrations on this page will help you. Note the depth of body, shortness of leg, natural thickness, balance and strong bone with legs set squarely on the corners of these Polled Shorthorns that so accurately portray beef form at its best.

COOPER FARMS

C F BEAUTY - Was in our show string and near the top at every show. She is a show and brood cow prospect -- a full-sister to the 1951 Congress Champion Bull.

Polled Shorthorn breeders, by incorporating into their animals greater concentration of quality, more uniformity, increased usefulness and a closer adherence to the modern beef type, have created a demand that has brought the cattlemen of the world to our doors.

Since Polled Shorthorns were developed and improved in America, this is their original source of supply. This foreign trade, combined with an ever-increasing demand at home, creates a ready market for the good surplus animals of every Polled Shorthorn breeder.

With the ever-expanding promise of their use in farm and range herds for the purpose of engendering earlier maturity, heavier market weights and at the same time breed horns off calves . . . and with the clear prospect of continued strong export demand for seed-stock . . . Polled Shorthorns have the greatest future of any other breed of beef cattle in America today.

An investment in modern Polled Shorthorns represents the best way to progress in the beef cattle business. They offer dependability, year after year . . . converting roughages and other farm produce into profit more efficiently than any other cattle. They are unexcelled in ability for fast gains, weight-for-age, gentleness and smooth fleshing.

They have the MODERN POLLED HEAD and they combine ease of handling with profitable production methods.

Polled Shorthorns

*The Modern Hornless Head
Plus Quicker Beef & More Of It*

The record of Shorthorn cattle as the greatest improvers down through nearly two centuries is a matter of history and quite generally known. There are few improved breeds today that do not owe much of their excellence to infusions of Shorthorn blood.

In the development of modern Polled Shorthorns all the improvement in type, quality, fleshing ability, weight-for-age, temperment and milking tendencies of Shorthorns are combined. But the outstanding feature is that these cattle are **NATURALLY HORNLESS**.

No other hornless breed will produce beef of like quality in the same given time as will Polled Shorthorns. It is commonly known among cattlemen that a comparison of weight for age shows Polled Shorthorns well out in front, usually with from 100 to 150 pounds more weight over the other hornless types at a year of age. That spells the difference between profit and loss in the management of a breeding herd and particularly in feeding out for market. It is what you have left above cost of production that counts. The farmer and ranchman, producers of cattle for slaughter, are the principal customers of the breeder of purebreds. They want the most efficient cattle and they must be given the kind of cattle they demand. All are agreed that hornless cattle are most adaptable to all conditions. Practical cattlemen are wanting good Polled Shorthorns to grade up their herds. More room at the feed bunk, or in shipping, with no losses from bruising - easier handling and feeding qualities - all have been taken care of in Polled Shorthorns.

E. G. TERPENNING

FEMALE

GLADSTONE PAULINE A A x2762-183 R-G42

61

Red, calved May 1, 1953. Bred and owned by E. G. Terpenning, Thurmont, Maryland.

BANGS VACCINATED.

"To breed these animals in purity of blood and perfection of type is one of the noblest and most satisfying occupations of men. No other endeavour yields higher returns

in the joy of achievement or tempers labour with more pleasure and happiness. . . The beauty of the herd at pasture delights the eye. Their thriftiness satisfies the desire for profit and their carcasses gratify mundane appetites. To breed Shorthorns is good; to breed good Shorthorns is better; to breed better Shorthorns is an achievement; and an achievement which tests the resourcefulness, intelligence and judgement of the breeder. It is an occupation which lasts a lifetime without monotony; a pursuit which never tires; a labour which is its own reward. Small wonder that it engages the attention of and knits in friendly bonds a large and choice Brotherhood. . . We are large in numbers, but we have only begun to grow. There will be rewards in store which cannot be measured." — H. L. STRAUS, President, American Shorthorn Breeders' Association and American Polled Shorthorn Society. (SHORTHORN WORLD, August 10, 1948.)

VERSATILITY IS THEIR VIRTUE

Naturally hornless **POLLED SHORTHORNS** are popular everywhere, but especially so in the South where beef cattle production is growing at a staggering pace. There, the Polled Shorthorn bull is the overwhelming favorite to pass along the better-doing traits of the Shorthorn to calf crops.....at the same time eliminating the costly and troublesome dehorning of calves.

Southern cattlemen like Polled Shorthorns, not only for their greater efficiency, but for their good type. A rising market is in prosperous future by buying the right kind of cattle at the right time.

The time is NOW.....at this great proven Congress Sale!

O. R. STAHL **FEMALE**

Dehorn Your Calves Before Birth

Why suffer
expense and
loss of mechanical
dehorning methods?

*Let Polled Shorthorns
do it "at no extra cost."*

Investing in an outstanding purebred Polled Shorthorn bull is the best way to progress in the beef cattle business.

In character, breed type, smoothness from end to end, wrapped in rich coat and scaling 1925 pounds in work condition, this Polled Shorthorn bull presents pictorially a model of the modern proved beef sire. He was often a champion in polled and horned competition and has sired champions. The clean poll, broad forehead, docile eye, large and clear muzzle, strong jaw, short and thick neck, with masculine development of crest, brisket and muscular forearm and over-all width and depth are featured impressively. He has proven his ability as a sire - and represents the modern type Polled Shorthorn breeding bull.

LEXINGTON, KENTUCKY

SUPER-EFFICIENT BEEF PRODUCTION

BETTER BULLS . . . FOR GREATER PROGRESS

Bulls represent the goal of purebred production, hence the intense rivalry among top breeding establishments in the bull group classes at leading shows. The final purpose of purebred cattle breeding is to provide germ plasma for increasing breed potency and for improving commercial production. The test, then, of herd accomplishment, is in the recognized uniformly high rating of the bulls that are used and that are produced for replacement and for distribution.

Those bulls that have enhanced most the reputation of their owners have been selected on the basis of their intrinsic merit. They have been bought by sound-thinking business breeders who know the growing and marketing phases of purebred and commercial production.

Such bulls have come from thick-fleshing, heavy-carcassed ancestry and they demonstrated by their individual inheritance the potency of their breeding. Right ancestry is a must . . . it is seldom indeed that the outstanding animals of any breed come from nondescript ancestors.

There is no limit to the usefulness of a truly great bull, especially if he is backed by ancestors that are known to be of the best type and character. The right bull can improve a herd almost unbelievably while a succession of improving bulls mated with good females can make the herd famous in a comparatively short time.

BLUE RIDGE MINA 3d 2233954
Red, Joseph Sigler

ROUND GROVE MINA A - Her three-quarter sister was the popular \$2,000 top of the Teegardin consignment in the 1954 L&L Sale. Her dam represents the best in Shorthorn breeding, such as Cruggleton Postboy by A. J. Marshall's Cruggleton Willingdon and Wernacres Zenith by Anoka Baronet. The best three steers of any breed at the 1954 International were from the Wernicke herd. This Mina family is exceptional for consistent production and mellow-fleshed, easykeeping qualities. Add to this the breeding record of her sire, Congress Champion Royfield's Leader, a 100% dehorner and you have a natural formula for success. SELLS OPEN. Pretested clean and BANGS VACCINATED.
